

Dear Redrock Customer,

The purpose of this letter is to notify you of a rate adjustment in your area that took effect on 7/1/2019. Each year, in accordance with municipal contracts, franchise haulers such as Redrock Environmental Group adjust their collection rates based on changes to the Consumer Price Index (cost of living). This year, service rates were increased by 2.99%.

A recycling surcharge of 1.1% is included in this adjustment due to recent declines in recycling commodity values. Last year, China, India, and Vietnam were among several Asian countries to impose import bans on recyclables. This has left many municipalities in the U.S. with limited options for off loading and selling recyclable material. Redrock Environmental Group, much like other companies in the Central Valley, are among those impacted by these import bans. However, we remain hopeful that the recycling markets will recover. When this happens, it is anticipated that this recycling surcharge will be removed.

Please reference the chart below to see your new service rates. If your service type is not listed in the chart or if you have any questions regarding this notification, please call our office during normal business hours and we would be happy to assist you. We appreciate your business and thank you for the opportunity to serve you.
