Caglia Environmental offers Free Disposal of Political Materials from March 3, 2020 Election

Free Dumping of Political Signs Offered in Effort to Keep Fresno County Communities Litter-Free

Fresno—Fresno County political campaign candidates and organizers can clear the valley of campaign litter by taking it to the Caglia Environmental facility in Fresno.

The effort to prevent littering is a free public service to Fresno County communities directed by Rich Caglia, Corporate Development Officer for the Caglia Environmental Companies.

“To help prevent political campaign signs from becoming litter, candidates can collect their signs and bring them to our Fresno County materials recovery facility, *Cedar Avenue Recycling and Transfer Station (CARTS)*,” said Caglia.

Election materials *should not be mixed with other trash* and brought to CARTS, located at 3457 S. Cedar Avenue in Fresno, during regular business hours: Monday–Friday 7 am–4 pm and Saturday from 7 am–2:30 pm.

For questions regarding the disposal of political materials, call the Caglia Environmental business office at 559-233-1158.

Caglia Environmental is committed to preserving and protecting the environment by providing technologically advanced solid waste and recycling services to communities in the Central Valley.
